| <b>3. Hazards identification</b>  | This product is not classified as dangerous according to EU Directive 1999/45/EC.<br>Eye contact: Transient superficial irritation.<br>Skin contact: Prolonged exposure may cause skin irritation.<br>Ingestion: Possible mild gastro-intestinal irritation with nausea and vomiting.<br>Inhalation: Inhaling aerosolized product may cause mild irritation of the respiratory system.  |                    |                |         |  |             |     |                 |                |       |                                 |            |           |            |         |                                  |                    |                    |         |         |   |            |           |              |         |
| <b>4. First-aid measures</b>  | Eye contact: Rinse thoroughly with plenty of water for several minutes. If symptoms persist, seek medical advice.<br>Skin contact: Rinse affected area with water. If needed apply cold compress to relieve irritation. If symptoms persist, discontinue use of product and seek medical advice.<br>Ingestion: Drink water to dilute product. Do not induce vomiting. Act immediately in order to prevent further irritation of mouth, throat and stomach mucosa. If symptoms persist, if persistent vomiting occurs or if blood tinged vomitus is present, seek medical advice.<br>Inhalation: Go into open air and ventilate suspected area. If irritation is experienced, mouth and throat may be rinsed with water. Aerosolized product adhering to the nasal cavity may be rinsed / diluted with saline/plain water. If irritation or asthma-like symptoms persist, seek medical advice. |                    |                |         |  |             |     |                 |                |       |                                 |            |           |            |         |                                  |                    |                    |         |         |   |            |           |              |         |
| <b>5. Fire fighting measures</b>  | Not explosive. Not auto-flammable. Not flammable. The product itself will not burn. If anything, packaging may be involved in a fire. Use CO2, dry chemical powders or alcohol resistant foam. If water is used, contain run-off.   |                    |                |         |  |             |     |                 |                |       |                                 |            |           |            |         |                                  |                    |                    |         |         |   |            |           |              |         |
| <b>6. Accidental release measures</b>   | Avoid spillage into sewers or surface water. For large spills: pump into plastic containers and rework/dispose as per local legislation. For small spills: use non-combustible absorbant and shovel into container for disposal.  |                    |                |         |  |             |     |                 |                |       |                                 |            |           |            |         |                                  |                    |                    |         |         |   |            |           |              |         |

HSC04 - Issue 2 revised2  
Issue date: October 27, 2005  
Valid until superseded

|  |   |
|--|---|
| <b>7. <u>Handling and storage</u></b>                    | Store in a cool and dry area.   |
| <b>8. <u>Exposure controls / Personal protection</u></b> | Not a hazard in normal use. No personal protective equipment required.  |
| <b>9. <u>Physical and chemical properties</u></b>        | Appearance: blue liquid<br>Odour: perfume<br>pH (as is) : ca. 3.5<br>Not Flammable. Non-Explosive. Non-Oxidizing.<br>Relative density: ca. 1.03 g/ml<br>Water solubility: high  |
| <b>10. <u>Stability and reactivity</u></b>               | Stable under normal conditions.   |
| <b>11. <u>Toxicological information</u></b>              | Not acutely toxic, may cause vomiting. If large quantities are ingested, treat symptomatically. Do not induce vomiting. If irritant effects are seen, these will be mild to moderate, depending on exposure. If in contact with eyes, flushing with water is recommended.<br><br>Estimated acute oral toxicity: LD50 (rats) $\geq$ 2 ml/kg<br>Eye irritation: Slightly irritating to the eyes<br>Skin irritation: Slightly irritating to the skin<br>Chronic toxicity: Repeated exposure to low levels will not cause adverse effects<br><br>Contact sensitization: Does not provoke a sensitization reaction |
| <b>12. <u>Ecological information</u></b>                 | The product is intended for wide dispersive use and is compatible with the down-the-drain disposal route.<br>The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.<br>The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation EC648/2004 on detergents.  |
| <b>13. <u>Disposal considerations</u></b>                | Consumer products ending up down the drain after use. Observe safe handling precautions and local legislation.  |
| <b>14. <u>Transport information</u></b>                  | Not subject to ADR/IATA/IMDG codes.   |
| <b>15. <u>Regulatory information</u></b>                 | This product is not classified as dangerous according to EU Directive 1999/45/EC and national laws.<br>All substances in the preparation are registered in the EU.  |
| <b>16. <u>Other information</u></b>                      | This product does not require any special training before use. Usage and handling instructions are mentioned on package and on this Material Safety Data Sheet.   |
